RE: George Yazbeck

To Whom It May Concern:

I am pleased to recommend George for graduate level studies in the digital media program. I was George's instructor for his Professional Speaking class for the Summer 2014 term at Northeastern University. Based on George's performance in that course, I am confident he will be successful in his academic endeavors. His undergraduate learning experience has taught him how to translate theory into practice.

George has shared that taking professional speaking gave him the opportunity to present himself confidentially while balancing the cues needed to perform well. He recognized his strengths and weaknesses in the course and grew in the process. He is an above average student and with focus on his career opportunity after completing a graduate degree in digital media.

Based on my assessment of George's abilities, I believe he has the capacity to successfully complete his academic work. I am available should there be any follow-up questions.

Thank you,

Patty Goodman, Ed.D.
