To Whom It May Concern:

As his instructor at Northeastern University, I highly recommend George Yazbeck for consideration in regards to attending Northeastern University Master Program. During the time we worked together I've observed many strengths in his performance.

George provides excellent, consistent design and production work. He manages his time well and can handle a variety of projects while meeting tight deadlines. He has been a great contributor to our classes.

Mr Yazbeck has created web site wireframes, site maps, and created a web site with rich graphics which gave his site a very professional look. He has demonstrated skill in creative imaging- creating complex composite images using state of the art graphic tools such as Adobe Photoshop and Illustrator.

In addition to having excellent creative, graphic and web design skills, George has been a great team player. He eagerly participates with the other members of the study team, sharing his ideas and expertise. He was always prepared to jump in anywhere we need help.

If you would like any more information about George, please feel free to contact me.

Sincerely,

Charles Linskey
